SUBJECT INDEX

A

Abnormalities, occlusal, and resultant sequelae due to high caries incidence and early loss of first permanent molar, 1269
Abscess, periapical, acute, 830
Abscessed deciduous tooth, 1264
Acrodynia, 60
Acromegaly, changes in form of jaws and in position of teeth produced by, 160
Adjuncts of new Angle mechanism, 409
Adolescence, growth and development at, evidences of, 509
Adult dentofacial deformities, approach to treatment of, 711
Age, defer old, prevent sickness, 63
Alloys, orthodontic, effects of soldering and other heat treatments on, 1238
Amalgam fillings, fractured, 658
American Board of Orthodontia, 228, 338, 775, 881, 987
  how it is working, 604
  is it justified, 454
  Dental Assistants Association, 339, 456, 563, 676, 777
  Society for Advancement of General Anesthesia in Dentistry, 115, 231
  for Promotion of Dentistry for Children, 777
  committee reports given at seventh annual meeting, 1163
  history of, 640
  minutes of seventh annual meeting, 1176
  program of, 761
  to the members of, 1161
  of Oral Surgeons and Exodontists, 339, 456, 563, 675, 777
  of Orthodontists, thirty-second annual meeting, 106, 223, 335, 458, 563, 664, 674, 775, 875, 982, 1084
  of Stomatologists, 116, 231, 338
Analgesia and anesthesia, nitrous oxide and oxygen, in pedodontia, 553
Anchor lugs, recessed, for lingual and labial arches, 936
  teeth, new lock for, 508
Anchorage, molar, overlays for, 294
Anesthesia and analgesia, nitrous oxide and oxygen, in pedodontia, 553
  local, in dentistry, 1075
Anesthetic for extraction, 531
  medication before, 1017
Angina, Ludwig's, 831
Angle mechanism, new adjuncts of, 409
Anomalies of jaws, congenital, 888
Anomaly, dental, diagnosis of, 383
Anterior band technic, 505
  teeth, fractured and lost, 735, 849
  restoration of, in child's mouth, 962
Appendicitis in children, 1194
Appliance analysis with measured pressure, 898
  Angle, new, adjuncts of, 409
  pin and tube, construction of, 281
Appliances, 816
  distoclusion, 251
  for treating impacted mandibular molars, 516
  orthodontic, causing changes in bone of mandible and temporomandibular joint, 795
  flexibility studies on, 779, 903
  spring, measuring forces of displacement in, 683
  practical, 903
  rustless steel, 55
  Wipla, 55
Apthous stomatitis, 1066
Apthrosa, 1066
Arch, high labial, 250
  labial, 250
  expansion, review of evolution of, 926
  lingual, 246
Arches, labial or lingual, spring loop mechanism in, 794
  lingual and labial, recessed anchor lugs for, 936
Assistant, dental, principles and practice of the, (book review), 221
Association of American Women Dentists, 565, 676, 777

B

Bacillus pertussis vaccine, immunization with, 1288
Band, anterior, technic, 505
Barbiturates, 1017
Behavior of child, medical aspects of, 445
Blood, coagulation of, saliva and, 870
  in rheumatic fever, bacterial investigation of, 1194
Bone and cartilage, transplantation of, 1012
  and tooth changes incident to experimental tooth movement, study of, and its application to orthodontic practice, 1
  growth and disease of, phosphates in, 329
  of mandible, changes in, resulting from orthodontic appliances, 795
Brash "etiology," thoughts on reading, 608
  review of, on conditions of growth, physiologic and pathologic, 393
Bridges, prosthetics and preorthodontia for children, 532
Bronchoesophagoscopy, removal of foreign bodies of dental origin by, 692
Bronx Hospital, reorganization of dental staff, 882
Brushing teeth, standardized, 957
Business aspect of children's dentistry, 75

C

Calcification of tissues by excessive doses of irradiated ergosterol, 975
Calcium, 1052
  glandular and ultraviolet therapy, application of, to orthodontia, 191
  need and calcium utilization, 763
Campbell, Joel Tillman, in memoriam resolutions, 562
Canal, root, method of treatment, 753
Cancer of jaws, 1153
Canine, impacted, resorption due to, 1026
Canines, impacted, method of uncovering, and attachments used, 512
Canker sores, 1066
Capping and treatment of partially and totally nonvital deciduous teeth, 531
Carbohydrates, 1051
Carcinoma of jaws, 1153
Care of children's teeth, teaching, 213
Caries as disease of childhood, 1260
  as related to pedodontia, 626
  chemical composition of saliva and blood serum of children in relation to, 1071
  high incidence, occlusal abnormalities and resultant sequelae due to, 1269
  incidence, 1271
  orange and lemon juice in control of, 642
Carpal centers, retardation in ossification of, familial, 869
Cases in practice, 722
Casting and finishing overlay, 298
  and orientation of model in three planes, 286
  preparation for, 296
Casto, Frank M., president-elect, 979
Cavernous sinus thrombosis, 834

Cavities, filling, 433
materials for children, 656
Cavity preparation and filling materials, 528
Centennial Dental Congress, 113, 228, 340, 458, 563, 675, 776
Century of Progress Exposition, 675.
Changes in form of jaws and in position of teeth produced by acromegaly, 160
Chickenpox, convalescent serum in treatment of, 328
Child behavior, medical aspects of, 445
examination of, 944
mental attitude of, toward dentistry, 537
patient and dental office associate, 760
psychology of, and how it can be turned to advantage in dentistry, 85
Childhood, dental caries as disease of, 1260
Child's mouth, pathologic conditions of soft tissues in, 949
restoration of anterior teeth in, 962
Children, appendicitis in, 1194
are they more resistant to disease than adults, 1062
bridges, prosthetics and preorthodontia for, 532
dental practice for, 525
dentistry for, 324
evolution of, 534
diabetic, 447
filling materials for, 656
gifted, opportunity room for, 976
nutritional studies on, 642
preventive dentistry for, 412
pyuria in, significance and treatment of, 558
strategy of handling, 525
tuberculous, ten years at Lymanhurst School for, 95
Children's dentistry as taught in Chicago College of Dental Surgery, Dental Department of Loyola University, 546
Northwestern University Dental School, 548
University of Illinois, 551
business aspect of, 75
case of Anna Louise, 634
correlating preaching and practice in, 299
learning to improve ourselves in, 1082
preventive dentistry, school dental clinic, 69
teeth, ideal filling materials in, 961
teaching care of, 213
Chin, human, and human tooth change, 730
Chorea, short study of 200 cases, 1195
Cleft lip and palate, 888
Cleveland Physiotherapy Society, 457
Clinic clubs and study clubs, 322
dental, school, 69
Guggenheim, 1932 report, 865
plan as applied to orthodontia, discussion of, 404
Dr. W. R. Dinham's, 453
public, as measure of cost and value of universal health service, 424
Clubs, study and clinic, 322
Coagulation of blood, saliva and, 870
Cod liver oil concentrate, ineffectiveness of large doses of, in prophylaxis of otitis media complicating scarlet fever, 764
Color of teeth as index of their resistance to decay, 386
Colorado State Board of Dental Examiners, 1087, 1199
Committee for dental health survey, 980
Congenital heart disease with special reference to its etiology, 96
Construction of pin and tube appliance, 281
Crisis in orthodontia, 1201, 1290

D

Decay, resistance to, color of teeth as index of, 386
Deciduous teeth, if they could talk, 658, 759
partially and totally nonvital, capping and treatment of, 531
periapical infections of, 964
premature loss of, measuring relative movements of teeth due to, 1229
root canal treatment and filling for, 753
with nonvital pulps, treatment of, 1043
tooth, abscessed, 1264
Defects in speech, diagnosis of, 1007
Deficiences, iodine, relative, importance of, in certain forms of goiter, 765
Deficiency of teeth, 715
Deformities, dentofacial, adult, approach to treatment of, 711
nasal, correction of, by plastic methods and by transplantation of bone and cartilage, 1012
of nose, 895
Dental anomaly, diagnosis of, 383
assistant, principles and practice of the, (book review), 221
clinic, school, 69
caries as disease of childhood, 1260
as related to pedodontia, 626
health insurance, 836
public, 1277
survey, 1029
committee for, 980
hygiene in schools, 1279
needs, nationwide survey by A. D. A. to determine, 1080
office associate and child patient, 760
practice for children, 525
future, 544
Society of State of New York, 114, 230, 341, 457
Dentist's efforts, value of, 1266
Dentistry, advantage of child psychology in, 85
big new move for, 98
children's, business aspect of, 75
correlating preaching and practice in, 299
correlating, with medicine, 539
for children, 324
as taught in Chicago College of Dental Surgery, Dental Department of Loyola University, 546
Northwestern University Dental School, 548
University of Illinois, 551
evolution of, 534
learning to improve ourselves in, 1082
local anesthesia in, 1075
mental attitude of child toward, 537
practice of, as preventive orthodontics, 1031
preventive, children's, school dental clinic, 69
presenting, to your patients, 412
x-rays in, (book review), 221
Dentition and diet, 1050
Dentofacial deformities, adult, approach to treatment of, 711
Denture reproductions, plaster, 380
Department of orthodontic abstracts and reviews, 1291, 1293
Development and growth at adolescence, evidences of, 509
nutritional influences on, 307
of face, 1117
of jaws, 920
of teeth and jaws, importance of nutrition in, 91
Dewey, Martin, first editor of International Journal of Orthodontia, 662
funeral oration at burial of, 673
in memoriam, 667, 669
an appreciation, 670
obituary notice, 566
Diabetic children, 447
Diagnosis, orthodontic, what are requirements of, 343, 354, 377
